E-child care is an electronic time and attendance system. It will provide real-time tracking, verification and reporting of child care attendance. E-child care will be implemented on January 1, 2012 in Monmouth County. The E-child care system will allow each parent to have up to 2 alternates who can swipe or call in the child's/children's attendance (under NO circumstances can a provider be an alternate).

This document is an agreement between the parent and the alternate for the purposes described above. By both parties signing this document, it is understood that the parent gives the alternate authorization to check the child(ren) in and/or out of care.

In order to issue an alternate card, the following information must be completed by the alternate and both parties must sign where applicable.
