One shot closer

Get the COVID-19 vaccine so we can get one step closer to healthy families and communities

My Vaccine Story

“

We do not want to play roulette with this virus. You may be fine with it or it can be deadly...

We want everyone to be safe. That's why I'm advocating for each and every one of you to be vaccinated.

*- Marilyn Mapp, MA, RN
Director of Nursing at Jefferson Health*

The state is making it easier for everyone to get a vaccine by bringing vaccination sites closer to you. If your community- or faith-based organization would like to host a community vaccination event at no cost to you, please [register here](#).

Over 3.9 million New Jerseyans have been fully vaccinated. We need to continue our efforts to get everyone vaccinated. Your vaccination matters – make today the day you decide!

COVID-19 vaccines are

SAFE

EFFECTIVE

FREE

You can get a vaccine if you are uninsured and/or undocumented

ALL New Jerseyans age 12 and older are eligible for a COVID-19 vaccine*.

COVID-19 vaccines are safe to get even if you have an underlying health condition: People with underlying medical conditions are at increased risk for severe illness from COVID-19

Full vaccination occurs 2 weeks after the 2nd dose of a two-dose vaccine or two weeks after a one-dose vaccine:** It typically takes two weeks after vaccination for the body to build immunity against the virus

Vaccines are a safer way to build protection even if you have already had COVID-19: A COVID-19 vaccination is a safer way to build immunity against COVID-19 and prevent spreading the disease to friends, family, and others around you

Did you know?

**The CDC has currently approved only Pfizer/BioNTech for 12-15 year old individuals, and may not be administered at all sites. Please contact the vaccination site before your appointment to determine availability and consent requirements.*

***Second dose is required for Pfizer and Moderna. The Johnson & Johnson (Janssen) COVID-19 vaccine only requires one dose*
